What Educators and Parents are Saying About KVHS Online PD:

I gained more from this course than I ever dreamed possible. – Kim Meddings, Pike County, Tech Resource Teacher

This course has given me an additional way to look at meeting student's reading needs. Technology can be used to meet those needs. There is so much support for teachers "out there" in technology and on the Internet
Sandy Meachman, Ohio County, Principal

Everyone participating in this course has helped me get excited and informed about the opportunities for learning online. Julie Dougan, Henderson County, Special Educator

This course has been great! I will recommend it to others too. Technology is an awesome thing (smile).
Lisa Balboa, Todd County parent

The KVHS courses **SBDM New & Existing Member Training**, **SBDM Principal Selection Training**, can be offered on an as needed basis with online enrollment ALWAYS open. In addition Schools and districts can request "custom" sessions of any KVHS courses to help meet their unique professional development needs and schedules. Contact KVHS for details and pricing.

Course descriptions, information about cost, professional development and leadership credit, intended audience and grade level, are online at the KVHS web page at www.kvhs.org.

Registration is only available online at the KVHS website.
